SchoolRooms (<http://schoolrooms.net>) is a powerful, high-quality resource for today's students that helps students focus on relevant curriculum content including over 70 curriculum topics, educator-approved websites, and multimedia that support state and national curriculum standards. From the Web to the library, from electronic databases to local resources, it's getting harder and harder to find the right information because today, there is simply too much information. SchoolRooms help organize relevant, high-quality information aligned to the K-12 curriculum so students can find the right age-appropriate information when they need it. SchoolRooms focus on the actual topics students will study and provide links to the very best sources so students can explore, discover, and learn.

District Contact Person _____ Signature _____

Please complete and Fax to Cherry Fuller (817) 740-3650 - Include Page 2 (s) for each library.
