

# ONEPLACE

The **ONEPLACE** for quality curriculum resources for classrooms across Region XI

## What is OnePlace?

- a new single online interface that links its users to all of their online subscription resources

## Where is OnePlace?

- <http://oneplace.esc11.net>

## How do I login to OnePlace?

- Existing UnitedStreaming users can simply login to OnePlace with your UnitedStreaming username and password.
- New UnitedStreaming users - automatic registration is in development for Fall 2007, but for now, you will need to contact Kayla Steiner (ksteiner@esc11.net) to request your OnePlace login.

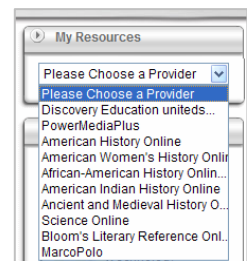

## What does OnePlace do for me?

- **Single sign-on!**  
Once you are logged into OnePlace, you will automatically be logged into all of your subscription resources
- **Single search!**  
OnePlace will search across all of your subscription resources with a single search. Choose an item from your search and OnePlace will take you into the host resource, directly to that chosen article or media item.
- **Hot links to featured web resources!**
- **And this is just the beginning!**  
OnePlace is a brand-new tool and we're just beginning to tap into its great potential - look for many more great features to be coming to you soon.

## How do I get started?

- go to <http://oneplace.esc11.net>
- Login with your UnitedStreaming username and password
- If you are not able to login, email Kayla Steiner at [ksteiner@esc11.net](mailto:ksteiner@esc11.net) for assistance - be sure to include your District, Campus, and UnitedStreaming username that you want to be using in OnePlace
- In order for OnePlace to store your usernames and passwords for each of the subscription resources, you will need to login once to each resource to enter that information in the system. The easiest way to do that is to pull down the "My Resources" list in the upper-right corner of the screen, choose each resource, one at a time, and enter your login. Otherwise, the first time you try to access one of the databases, it will prompt you for your login.

- That's it! You're ready to search and explore all of your favorite online resources from "one great place".
