

Our professional development management and collaboration platform goes beyond registration, reporting, and logistics to focus on the end goal, educator growth. Strive not only facilitates all of your logistical needs but intuitively integrates staff evaluation, goal setting, and PLC collaboration to create a true professional growth system. Strive puts the right pieces together for the right purpose, helping every educator grow.

## VERSATILE LEARNING

Strive provides an intuitive and innovative course management system that supports the myriad of professional development avenues for educators. Each course can be a collection of activities including face-to-face training, online content, discussion forums, and demonstration of learning. This flexibility in course construction allows for innumerable combinations of hybrid courses to facilitate any learning need.

## MOBILE READY

Built from the ground up for full functionality on mobile devices, accessibility and ingenuity allows Strive to support educators everywhere. Mobile access, through responsive web design, maintains all of the functions and controls of Strive in an intuitive and versatile format on phones, tablets, and laptops.

## REPORTING RIGHT

Strive uses a powerful reporting engine to meet all of the typical reporting needs such as registration, attendance, and credit acquisition. Campus leaders can also use Strive's dynamic, real-time reporting for educator goals and portfolios to support educators in need.

## LEARNING PLANS

Strive consolidates objectives from school districts, campuses, teams, and individual educators to create comprehensive professional learning plans. Using these goals as a lens, educators have a powerful tool for finding ideal learning opportunities that best suits their needs.

## INTEGRATED EVALUATION

As a complete appraisal system with customizable forms and workflows, Strive empowers leaders to provide valuable feedback. Seamless integration of feedback into the learning process transforms classically isolated professional development and evaluation processes into genuine professional growth.
