“ I first got News-O-Matic about a year ago because my school suggested that we use it. I thought I would delete it at the end of the school year, but then I started to enjoy it, and now I read it every day! I think I will keep reading these articles for a long time. Thank you for making this amazing app!

“ In my 10 years of teaching, I have never come across a publication that was this effective in capturing the attention of the student and making them want to learn and understand more.
