

Notes:

Data is provided by the Texas Workforce Commission

PDF versions of the full list of occupations by Local Workforce Development Area by Education Service Center is available, as well as top 75 occupations for training activity use.

Occupations were sorted by highest annual openings followed by highest median annual salary.

Conditional formatting was applied to note any occupations that are over the regional median annual salary or the regional median percent growth.

Occupation titles highlighted in green note any occupations that are at or over both the regional median annual salary and regional median percent growth.

As Local Education Agencies select the programs of study which they offer, all data should be taken into consideration.
